# Registration of Private Trade Schools

CA20NDG 10  
-72036

Private trade schools offering one or more of the training categories indicated herein are required to register under The Trade Schools Regulation Act.

Registered schools are required to make application for re-registration annually. Supervision of the operation of registered schools includes the approval of all advertising copy, teacher qualifications, graduation requirements, and fees charged for the courses.

Annual approval is required of accommodation, equipment, lighting and heating facilities. Further, in collaboration with the local fire, health and safety department for the area in which the school is located, approval is required of the accommodation with respect to sanitation, freedom from fire hazard, and safety from accident wherever power machines are installed.

This is a *partial* list of courses conducted by the schools.

Many separate courses are available in each subject area. Courses vary widely in what they cover. For example, one course in radio may teach a student to repair radios; another may teach him to be an engineer with a broadcasting company. It is suggested that you write to the schools for complete information, and then choose the particular course you want.

The fact that two or more registered schools offer courses with similar titles does not mean that these courses are of equal merit or will be of equal value to you. It *does* mean that each school truthfully describes its offerings and that the fees charged are considered reasonable for the facilities available, and for the instruction and services rendered.

# Retention and Payment of Fees

Made Under The Trade Schools  
Regulation Act  
ONTARIO REGULATION 160/69  
Section 19  
Section 20, subsections 1, 2, 3

19.

A trade school may charge a registration fee which shall not exceed 10 per cent of the total cost of the course of instruction or \$50 whichever is the lesser, and which shall be applied to the total cost of the course of instruction.

20.

1.

Where a person gives to the keeper or operator of a trade school or to a salesman, representative or teacher of the trade school, prior to the commencement date of a course of instruction, notice in writing of the person's intention not to commence the course of instruction, the keeper or operator of the school shall refund any money paid for or on account of the fees by or on behalf of the person except the registration fee provided for in Section 19.

2.

Where a person gives to the keeper or operator of a trade school or to a salesman, representative or teacher of the trade school, after the commencement date of a course of instruction, notice in writing of the person's intention to cease taking the course of instruction, the keeper or operator of the trade school shall be entitled to retain,

(a) the registration fee under section 19;

(b) the proportion of the fees for the whole course of instruction that the part of the course of instruction supplied and serviced up to the time of receipt of the notice bears to the whole course of instruction; and

(c) the greater of,

(i) the sum of \$25, and

(ii) 10 per cent of the difference between the fees for the whole course of instruction and the proportion of the fees that the part of the course of instruction supplied and serviced up to the time of receipt of notice bears to the whole course of instruction.

3.

Where it is necessary for a trade school to supply equipment in addition to written material for a course of instruction and the equipment is supplied to a person and the trade school receives from the person a notice under subsection 1 or 2, the trade school may make a charge, not exceeding the equivalent retail cost to the trade school, for the equipment or for the use thereof, as the case may be, except where the person returns all the equipment to the trade school, unopened or as issued, within ten days of the receipt of the equipment by the person.
